50	<p data-bbox="662 436 1114 468" style="text-align: center;">APPLICATION OF DISTANCES</p> <p data-bbox="358 516 1398 663">The distances in this tariff in miles are to be used as the official distances of the W&LE between the stations named, unless otherwise specifically provided in tariffs lawfully on file with the Surface Transportation Board on interstate traffic, and with the State Commissions on intrastate traffic.</p>
60	<p data-bbox="662 699 1114 730" style="text-align: center;">COMPUTATION OF MILEAGE</p> <ol data-bbox="358 779 1398 1245" style="list-style-type: none"> <li data-bbox="358 779 1398 1045">1. Mileage will be computed on the basis of the shortest distance over the routes of the W&LE based on freight mileage tables of this tariff published by this railway lawfully on file with the Surface Transportation Board or State Railroad Commissions. Mileage will be computed on movement from station of origin or station at which received from connecting line to destination station or to station at which delivered to connecting line without deduction of mileage through switching district. (See Note) <li data-bbox="358 1094 1398 1245">2. When the transportation begins and ends, i.e. when a car is both loaded and unloaded, within a switching district, no mileage will be allowed. Mileage between an industry or public track and freight station at station or origin or destination will not be allowed. <p data-bbox="699 1335 1076 1367" style="text-align: center;">EXPLANATION OF NOTES</p> <p data-bbox="358 1415 1398 1682">Note: The intend of the clause “without deduction of mileage through switching districts” is to insure mileage being allowed for the full distance the car moves, via route of movement from freight station of origin to freight station to which destined. When there are two or more freight stations on a road within a switching district, mileage will be paid to or from the station within such district at which the car is actually loaded or unloaded or at which it is received or delivered to connecting line.</p>
